4. EXECUTIVE SUMMARY

4.1 Statement of Financial Performance

Consolidated performance against annual budget (Projected Operating Results)

Revenue by source

Year-to-date accrued revenue is R31, 258 million as compared to the year-to-date budget projections of R31, 744 million for August 2013. This is as a result of receiving Equitable Share Grant in advance for the quarter ending 30 September 2013. The main sources of revenue that are below budget are interest on investments and rental of facilities and equipment. This is because the financial year commenced 01 July 2013.

Operating expenditure by type

To date, R9, 962 million has been spent compared to the operational approved budget of R121, 160 million. This does not include non-cash items such as depreciation & impairment. The huge difference is due to the fact that the financial year commenced 01 July 2013.

Refer to Annexure A, Table SC1 for further explanation for material variances on both revenue by source and expenditure by type. The summary statement of financial performance in Annexure A, Table C4, is prepared on a similar basis to the prescribed budget format, detailing revenue by source type and expenditure by input type.

Capital Expenditure

Year-to-date expenditure on capital amounts to R46, 750 or 1.09% of the total original budget of R4, 289 million. Expenditure is expected to gain momentum as the financial year progresses.

Please refer to Annexure A, Table C5 for further details.

The aim of the programme is to capacitate Finance Graduates to eventually be able to fill CFO and other financial posts in municipalities. Their appointment is for a period of 24 to 36 months depending on completion of the programme.

The three Finance Interns have been registered and have started the Municipal Finance Management Programme with Deloitte. They are also receiving on the job training.

ASSET AND RISK MANAGEMENT**Insurance:**

All Council assets are adequately insured with Lateral Unison for a period of three (3) years. The insurance portfolio / costing was reviewed and implemented in August 2012.

Asset Inventory:

TAT I-Chain Asset Management System was implemented. However, due to various problems experienced with the service provider, the contract was ended June 2012. BCX is currently developing a program to link asset management with eVenus – FBDM will be a pilot site.

The asset register and its management have in the meantime continued. The asset stock take took place during the second and third week of May 2013. Reconciliation of items that do not appear on the asset system is being verified and was completed prior to submitting the annual financial statements to the Auditor General in August 2013.

Information Backup:

All shared data on the internet system (*O & P drives only*) is backed up on the server with a further daily tape backup kept on the premises. System users are responsible for ensuring that data backup and maintenance is carried out with regard to their specific usage. General ledger and associated financial system data is backed up on the network server tape system.

The “e-Venus” financial system was implemented on 1 August 2009. A daily backup is done as well as a day end procedure to integrate daily transactions. On the last working day of each month a monthly calendar and financial (a few days after month end to accommodate financial transactions pertaining to the month closed) backup and integration including closing of votes and opening thereof in the new month is done.

Motor Vehicle Operating Cost:

The actual operating costs of Council motor vehicles incurred for the year to date as required in terms of the motor vehicle fleet policy are set out below:
