TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO REVIEW DIKGATLONG LOCAL MUNICIPALITY LAND USE SCHEME (LUS) IN ORDER TO BE FULLY SPLUMA COMPLIANT.

1. INTRODUCTION.

Frances Baard District Municipality (FBDM) requires the services of suitable qualified professional registered Town and Regional Planners to review Dikgatlong land use scheme (LUS) for its entire municipal area (wall-to-wall). The scheme has been recently reviewed (2012) and most of the deliverables will only require an update. The successful service provider will not develop the new LUS; however the focus of the review is on Spatial Planning and Land Use Management Act (Spluma) compliance. Upon appointment the service provider will receive full documentation of the existing LUS which was done in 2012. The service providers are required to attend the compulsory briefing.

2. BACKGROUND.

The Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) referred to as SPLUMA states that municipalities must, within five (5) years from the date of commencement of the Act (01 July 2015), adopt a land use scheme for the whole area. SPLUMA clearly stipulate that where municipality intends to amend its land use scheme, public participation must be undertaken to ensure that all affected parties have the opportunities to make representations.

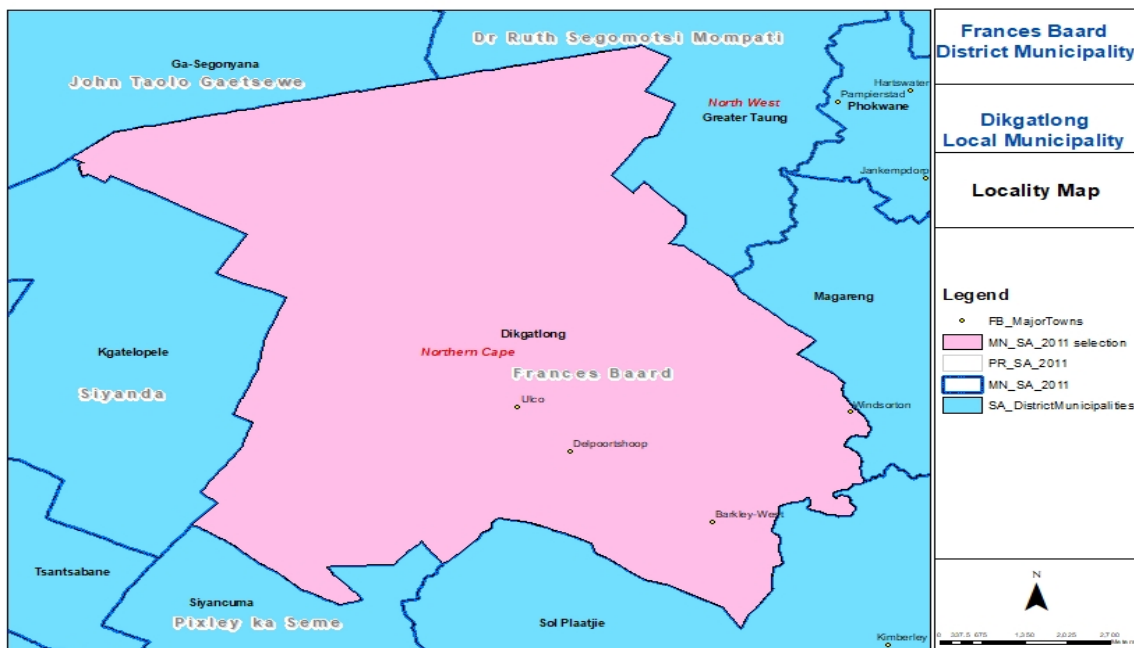

The Municipality has adopted Spatial Planning and Land Use Management Bylaw and was formally published in the provincial gazette on the 08 February 2016 to administrate and facilitate land use and land development applications within the municipal jurisdiction. The compilation of the LUS must take into consideration and be in-line with the approved bylaw.

SPLUMA prescribe specific requirements for a land use scheme in Chapter 5. The Act recognize that the key to successful spatial planning, land use management and land development is the establishment of an effective link between forward planning (spatial planning) and development control (now interpreted broadly as land use

management). The Municipality has identified that it is crucial for the existing land use scheme (LUS) to be aligned with the existing SDF.

3. LOCATION

The municipality falls under the Frances Baard District Municipality (FBDM) and it is 32 km from Kimberley. The municipality serves as a connector route for those travelling from Kimberley to Kuruman (or vis versa). The municipality is bordered by the Sol Plaatje Local Municipality on the south, Kgatelopele Local Municipality on the west, Ga-Segonyana Local Municipality on the north and Greater Taung Local Municipality on the east (Dikgatlong IDP, 2016/17).

4. PROBLEM STATEMENT

The existing zoning scheme therefore does not reflect the intentions and concerns of recent national land use related legislation such as the Spatial Planning and Land Use Management Act 2013 and its 2015 Regulations and the Northern Cape Provincial Spatial Development Framework (NCPSTDF). It is critical that land use management is integrally linked to forward planning and addresses the

municipality's challenges. The introduction of LUS provides the opportunity to consolidate and integrate the various land use related policies and development control systems and place the municipalities' on more efficient, effective and equitable growth pathway. The Municipality identified the need to review existing schemes in order to reflect the current law and policy environment.

The review process has to focussed on:

- Promote a more direct and immediate link between forward/policy planning and day to day land use development control measures; and
- Enhancing the existing land use management system where needed which can include, from the provision of guidelines, to the processing of the applications; the zoning register; development incentives; approval conditions; etc.

4. THE OBJECTIVES OF THE PROJECT

4.1 The main objective is to review the current LUS in order to ensure aligned, integrated, sustainable development for the entire municipal area. It must also fit within the policy parameters established by the national government (Spatial Planning and Land Use Management Act, 2013 (Act No. 16 of 2013) and Regulations and provincial government in the Northern Cape and the applicable provincial planning legislation.

i) Legislation, Land Use Policy and Guidelines

SPLUMA stipulates that a land use scheme (LUS) must give effect to and be consistent with the municipal spatial development framework and determine the use and development of land within the municipal area to which it relates in order to promote the following:

- economic growth;
- social inclusion;
- efficient land development; and
- minimal impact on public health, the environment and natural resources.

Section 25(2) of the Act establishes the basic contents of a LUS. It must include the scheme regulations setting out the procedures and conditions relating to the use and development of land in any zone; a map indicating the zoning of the municipal area into land use zones; and a register of all amendments to such land use scheme. Currently policies are outdated, a policy vacuum exists for a number of policy arenas and forward planning is not linked to ongoing land use development control.

Aspects which especially warrant further attention are:

- the relationship between the LUS and the municipal plans (the SDFs) – how does the LUS, which is primarily a static instrument of control, adapt to meet the changing needs of the municipality as these are reflected from time to time in the five yearly SDF's;
- linking the allocation of rights to the objectives such as integrating land use and transportation, encouraging (informal) economic development; balancing the needs of flexibility with predictability; and protecting the natural and built environment;
- development of strategic sites; and
- Technology (e.g. renewable energy).

4.2. The following are critical components of the review for the LUS which Service Provider must adhere to:

- i.) Inception plan (Milestones, deliverables and Cost breakdown);
- ii.) Definitions;
- iii.) Legislation, Land Use Policy and Guidelines;
- iv.) Land use Scheme and Regulations;
- v.) Draft Land use scheme and Zoning Maps;
- vi.) Conditions of Approval;
- vii.) Landuse and zoning registers;
- viii.) Development Incentives;
- ix.) All necessary newspaper advertisements must be prepare and published in the local newspapers;
- x.) 2xPublic participation reports
- xi.) Present to Technical and PSC Committees for approvals;
- xii.) Ensure Council adopt the final LUS and Zoning Maps; and
- xiii.) Prepare notice for gazetting final land use scheme.

- 4.4 SPLUMA and its Regulations, the Northern Cape Provincial Spatial Development Framework (NC PSDF) shall enhance the objective of the development of the LUS. The Comprehensive SDF Guidelines, NCPSDF and SPLUMA are therefore Adherence to Chapter 5 and 6 of SPLUMA, 2013 are very critical.
- 4.5. The proposed LUS review in cooperation with the SDF, must give effect to the development principles contained in the Spatial Planning & Land Use Management Act, 2013 including:-
- (i) Spatial Justice;
 - (ii) Spatial Sustainability;
 - (iii) Efficiency;
 - (iv) Spatial Resilience; and
 - (v) Good Administration

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
