## **1. BACKGROUND**

The Energy Efficiency Demand Side Management (EEDSM) program, recognized globally as a key strategy for climate change mitigation and energy security, was formally initiated by the Department of Electricity and Energy (DEE). In alignment with this, the District Municipality began participating in the EEDSM program during the 2024/2025 financial year to reduce energy consumption across its buildings and infrastructure. Under the updated EEDSM 2.0 requirements, the district must transition to the Energy Efficiency in Public Buildings and Infrastructure Programme (EEPBIP), which emphasizes measurable energy savings, greenhouse gas (GHG) reduction, and the adoption of the Energy Performance Contracting (EnPC) model. This framework mandates the appointment of a Transactional Advisor to design a compliant EnPC model, standardize procurement documentation, and facilitate the engagement of qualified Energy Service Companies (ESCOs), while ensuring financial sustainability through performance-based funding mechanisms.

## **2. OBJECTIVE**

The primary objective is to procure a qualified and experienced Transactional Advisor (TA) or a Consortium of Advisors to provide comprehensive financial, legal, technical, and commercial advisory services to the District Municipality. The contract will be a multi-year for a maximum of 24 months, subject to the availability of funds from the Department of Electricity and Energy. This support will span the entire project lifecycle, from initial preparation and structuring through to financial close and the final appointment of Energy Service Companies (ESCOs).

The contracted Transactional Advisor is expected to execute the following key objectives, ensuring the Energy Performance Contracting (EnPC) initiative is successful, bankable, and compliant:

- **Project Structuring and Packaging:** Guide the District Municipality through the conceptualization, structuring, and packaging of energy efficiency projects to ensure they are attractive and viable for implementation via ESCOs.
- **Documentation and Compliance:** Develop, refine, and finalize all requisite project documentation, including Concept Business Cases, financial models, technical specifications, Invitations to Tender (ITT), and bankable Energy Performance Contracts (EPCs), ensuring strict adherence to institutional requirements and national procurement regulations.
- **Procurement and Contracting Strategy:** Advise on and manage a competitive, transparent, and legally sound procurement process for the efficient selection and engagement of ESCOs, specifically under a shared savings or guaranteed savings model.

- Capacity Building and Knowledge Transfer: Conduct targeted training workshops and structured knowledge transfer sessions to build and enhance the institutional capacity of public sector teams, enabling them to independently manage and execute future energy efficiency transactions.

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Municipal Bidding Document (MBD) must form part of all bids<sup>1</sup> invited.
  
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
  
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
  - a. take all reasonable steps to prevent such abuse;
  - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
  - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
  
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
  
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
