#### ASSET AND RISK MANAGEMENT

#### **Insurance:**

All Municipal assets are adequately insured with Lateral Unison for a period of three (3) years. The insurance portfolio / costing was implemented in September 2012, and it is reviewed yearly in July.

#### **Asset Management:**

The asset register is updated on monthly basis; this is done to keep up with any changes that might have occurred. The final stock take will be done during the month of June 2015.

#### **Information Backup:**

All shared data on the internet system (*O & P drives only*) is backed up on the server with a further daily tape backup kept on the premises. System users are responsible for ensuring that data backup and maintenance is carried out with regard to their specific usage. General ledger and associated financial system data is backed up on the network server tape system.

The "e-Venus" financial system was implemented on 1 September 2009. A daily backup is done as well as a day end procedure to integrate daily transactions. On the last working day of each month (a few days after month end to accommodate financial transactions pertaining to the month closed) a monthly calendar, financial backup and integration including closing of votes and opening thereof in the new month is done.
