ASSET AND RISK MANAGEMENT

Insurance:

All Municipal assets are adequately insured with Lateral Unison. The contract runs from 01 January 2016 for a period of three (3) years.

Asset Management:

The asset register is updated on monthly basis; this is done to keep up with any changes that might have occurred. The last asset count was done during the month of June 2018 for the 2017/18 financial year.

Information Backup:

All shared data stored on file server (*O & P drives only*) is backed up on backup tapes which are extended automatically on a daily, weekly, monthly and annually basis. System users are responsible for ensuring that data backup and maintenance is carried out with regard to their

specific usage. General ledger and associated financial system data is backed up on the network server tape system, daily, weekly, tapes are stored on premises, monthly and annually are stored off site

The "e-Venus" financial system was implemented on 1 September 2009. A daily backup is done as well as a day end procedure to integrate daily transactions. On the last working day of each month (a few days after month end to accommodate financial transactions pertaining to the month closed) a monthly calendar, financial backup and integration including closing of votes and opening thereof in the new month is done.

Motor Vehicle Operating Cost:

The actual operating costs of the municipal motor vehicles incurred for the year to date as required in terms of the motor vehicle fleet policy are set out below:
